LISA WU

Director of Enrollment

The 2018 edition of The Tiger is dedicated to Lisa Wu, our Director of Enrollment. Lisa has had a major impact on Lick-Wilmerding and has served a mentor, friend, and leader in our school. She has recruited and matriculated a generation of Tigers. When asked to reflect about Lisa and her presence at Lick her colleagues have said, "She is irreplaceable.", " a consummate professional", "an inspiration to me and many others."

Over the past 17 years, Lisa Wu has been a driving force in shaping our community. Without her leadership and guidance Lick-Wilmerding would not be the type of school it is today. We thank you for loving us and for loving our school community. As you embark on a new journey in the fall, please remember you will always be a Tiger!

It's no coincidence that her initials are LW. Since the day I met her, I knew Lisa's belief in how great our school could be was strong. Lisa's vision and passion set the tone for how each and everyone of our students could and would be served at Lick-Wilmerding.

The Lick-Wilmerding community will forever remember Lisa Wu as the woman who transformed not only the face of our school, but the way admissions offices in the Bay Area will operate from here on out.

- Nathan Lundy

Lisa, you have been an incredible embodiment of our school's most cherished values for the last 17 years. Your impact in the lives of hundreds of Lick students, and your vision of a "Lick kid" has changed who we are, and what we could be, for years to come. There really are no words that can adequately capture how grateful we all are for your support, guidance, and friendship. All I can say is thank you.

- Cristal Ogletree

Lisa Wu is a force of nature. She manages to accomplish what few other mere mortals only dare to attempt. A tiger down to the core, Lisa fights for and breathes life into our mission through the many families from all walks of life she has brought to Lick-Wilmerding. Our school community more closely embodies who we aspire to be because she and her team have attracted, supported and welcomed students and families who 15 years ago would never have envisioned themselves here at LW.

- Chris Yin

Dear Lick-Wilmerding Students:

I congratulate each of you on completing another year of study and growth, while simultaneously helping to make Lick-Wilmerding such a wonderfully dynamic educational institution. Each day as I orient myself to the various activities on the calendar, I am amazed by the various goings on at the school. A typical day often involves club meetings, discussions in the center, academic presentations and debates, screenings of student films, sporting events after school, and tutoring other students here at the school. This flurry of activity is a reflection of the passions and interests you bring to school each day.

Your commitment to each other and to the school also helps the institution live its mission. By helping others in need and through your service Lick-Wilmerding students are healing practitioners as we seek ways to create a more just and healthy world. I thank you for your service to the school and to the world. Your work gives me hope that that the skills you learn at LWHS will translate into concrete action in the future for the benefit of this precious planet.

This school year will also be remembered as a building year where you had classes in the bungalows in the learning village (also known as portables in the parking lot). You shared lockers and a smaller campus, and despite the cozier feel, you continued to bring joy, passion and commitment to school every day. This year will also be remembered as a time when your activism was ignited as together we work toward created a safer world free of gun violence.

Lastly, I thank Mr. King and the editors of the yearbook for their hard work producing this year's edition of The Tiger. Their dedication is yet another example of the spirit of service and care that permeates the school. I wish you each a peaceful and restful summer. Seniors, I thank you for your leadership of the school this year and wish you all the best as you head off to your next adventures. My hope for you is that you continue to love to learn, and that you are confident in your own abilities. Please keep in touch and visit often.

Kind regards,

Eric Temple

HALLOWEEN

DÍA DE LOS MUERTOS

To pass his free time**, Felix Murphy '20,** rides motorcycles, downhill, very very quickly**.** "I got into dirt biking when my family started making yearly trips to the middle of the desert with family friends. My dad got my sisters and I a little 50cc Honda, and within a couple of years he bought his own bike and we slowly upgraded. We originally went to El Mirage Dry Lake in SoCal, but have since been to a different dry lake in Nevada, as well as state run parks near by. I continue to dirt bike because it's a great way to bond with my dad- we work together to fix the bikes and sometimes when you are stuck in the middle of nowhere something goes wrong, and you have to figure out a solution to get home. It's a great challenge, and once I get my motorcycle permit in May, my dad and I will be going to do longer 3-5 day long trips in Oregon, hopefully as soon as this summer. As to 3 words to describe going down hills, I think they would have to be mildly terrifying but exhilarating"

DENT HIGHLIGHTS

Sam Schickler '19, along with Alex Fine '17 have done something that many entrepreneurs strive to do: these boys coded and sold an app called Quill. "Quill is an app thats goal is to help students learn and process history readings faster. It does this by creating a short summary from pictures of the reading. Alex came up with the idea and then he brought me on to work with him. We met at "coding club," then worked on a couple of smaller projects before starting Quill. My love of programming came from both my 5th grade computer teacher who taught me html and to hack the online typing test so I can type 1000 words a minute. It also came from Mr. G. and math team. I loved learning and solving problems based on logic and math which translated well into computer science. I think we saw an opportunity where we could help people, and where I could build something cool and interesting and new. Since Quill has been sold, it's been hard finding a new project to work on that I am passionate about and finding time for that in junior year. I recently started organizing a hackathon at Lick for next October which everyone should definitely come too."

HOWTH

Howth never fails to start the year on an upbeat note! Although it was a chilly October evening, every Tiger represented the theme in their best Surf's Up attire!

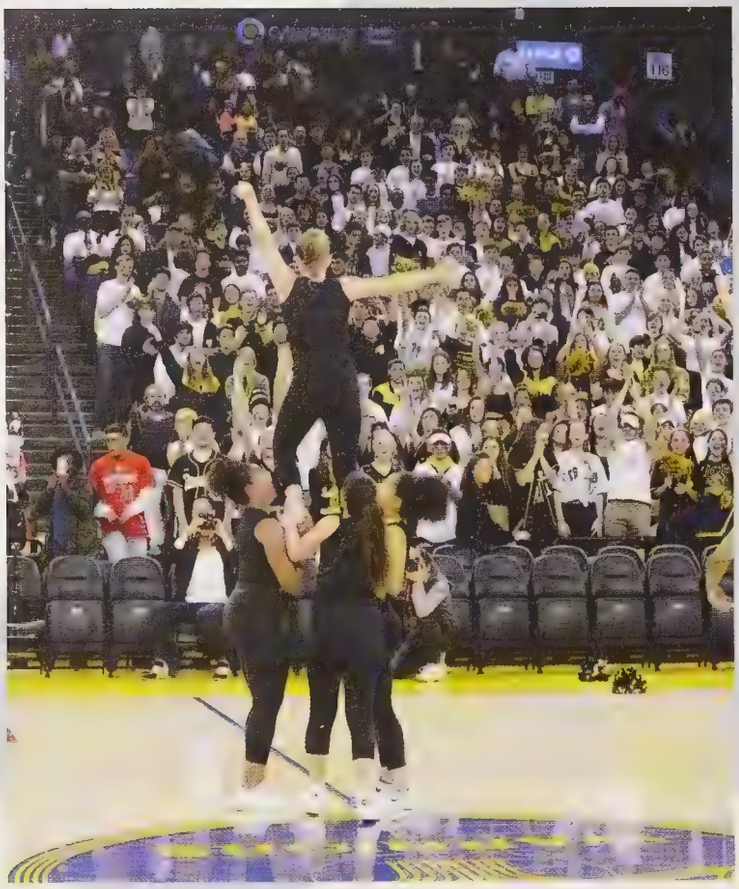
WINTER FORMAL

San Francisco Design Center Galleria

Each winter Student Council puts on a formal dance. The Co-Vice-Presidents decide on a theme. This year's theme was A Night Under the Stars. People from all grades donned more formal attire and danced the night away!

Lick-Wilmerding 2017-2018



Under Construction

Lick's New Look!

Although the construction is noisy at times, it has received a lot of positive feedback! "It's very exciting," exclaims long time teacher Señor A, "looking forward to spending my last teaching years in this exciting new facility." Erik Stein '18 is sad that he will not be in the building but he is "excited for future generations to experience a new facility that will aid their growth as people and students"

PROFILE

Nick Pera

Nick Pera is a class of '91 alum who is now VICE PRESIDENT OF PRECONSTRUCTION at Truebeck Construction based out of SF. After Lick, Pera went on to study Civil Engingeering at Santa Clara University.

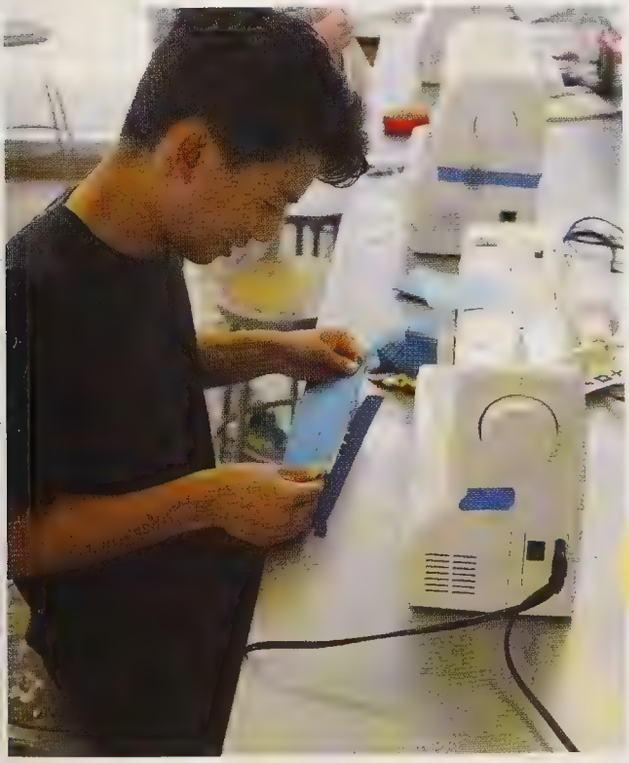
PEER CONNECT

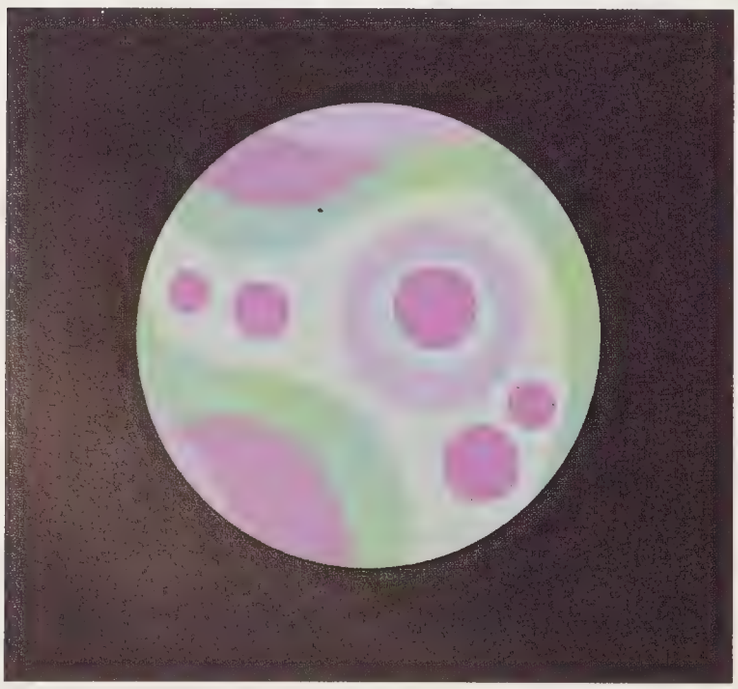
The Peer Connect Program is one of the many amazing opportunities that Lick-Wilmerding's Center for Civic Engagement organizes for students. Peer Connect is a mentor/mentee program that pairs students from the freshman class with students in other grades. Over the school year, there are many bonding events for these mentor/mentee pairs including: ice skating, making valentines, and playing dodgeball together!

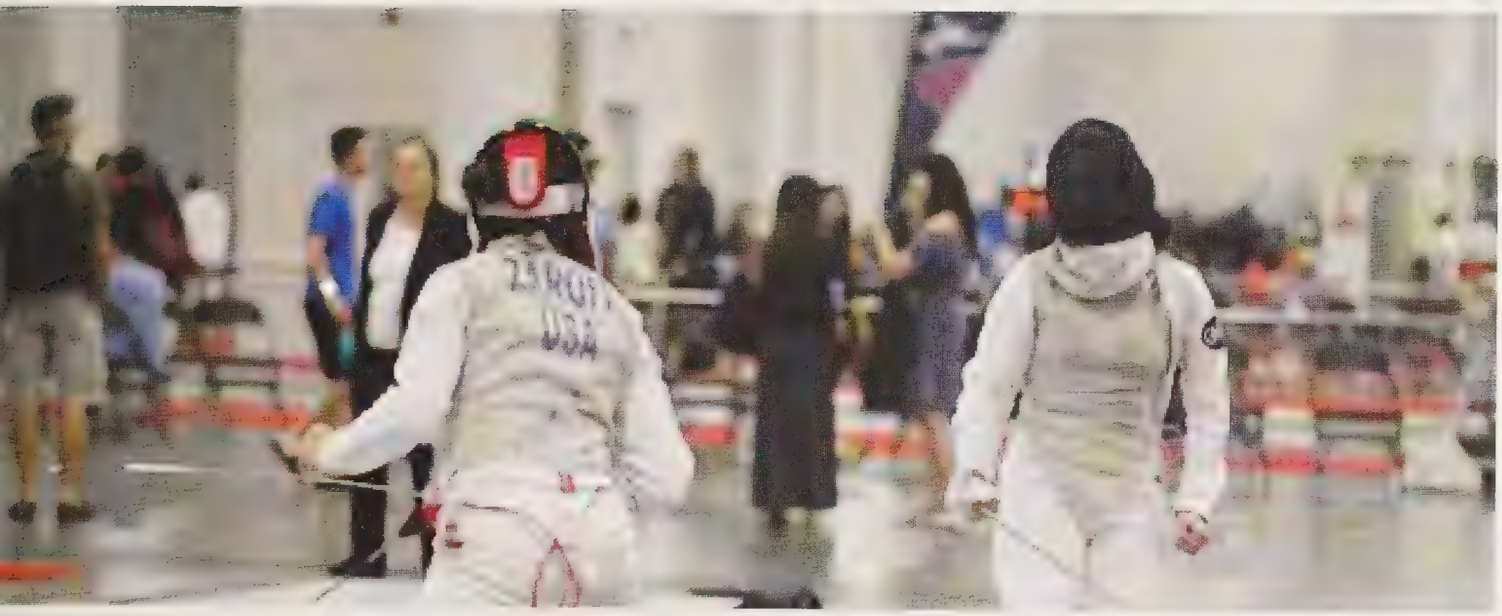
Student Life

Go Tigers!



Many students have seen **Maia Moredock-Ting '18** on stage singing with the Muses but what some do not know is that she also has a popular Soundcloud and Spotify podcast**.** "I've been singing since I was 10! I actually started accidentally when I heard that my fifth grade rock band was playing "Wonder Wall." I volunteered to do the cello part and then somehow ended up at the microphone. I've also been playing instruments since I was five, and when I added singing to my musical list, song writing seemed to be the next step. Music has always been a super great tool for my own self-expression, and artists that created really raw and genuine music were big inspirations in my ability to finally release songs I'd written. Seeing a positive response to the music that Ive shared has been incredibly cool!! I still can't really connect the fact that people around the world know who I am because I literally just sit at my desk for like an hour and then click an upload button. But being able to see that I've been able to have a positive impact in people's lives and in turn give them the confidence to post music they've written has been one of the most rewarding parts of what I do. It's like a role-reversal! I never thought that music would actually be a possibility for me in the future, and I don't want to jinx it, but I'd be lying if I said that singing and performing isn't something that I'd like to keep doing in life. Brazil really wants me to perform, so who knows! Fingers crossed."



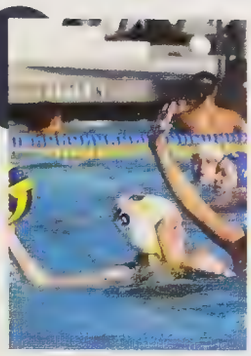


Roxanne Zaroff '21, younger sister of Leo Zaroff '18, has been fencing for an incredibly long time. "I got into fencing because my brother did a camp at our club and I initially started cause I thought playing with swords would be fun. I'd love to fence in college, but unlike other countries the US doesn't pay fencers as professional athletes so I can't make a career of it. I do foil fencing which means the torso area is the target. I train at the same club as my brother and I have been fencing for 6 years. I like how independent a a sport fencing is, and I like how it's almost as much as a mental challenge as a physical one. Also I've succeeded more in fencing than other sports and I enjoy the sense of community I get from being with my club mates."

THE CENTER

The Center for Civic Engagement is run by Christy Godinez Jackson, Alan Wesson-Suárez, and Ben Cohn. The Center helps to connect members of the Lick community to the surrounding community and provides many volunteer opportunities for all Lick community members!

Athletics



Volleyball, Cross Country, Field Hockey, Water Polo, Tennis, Basketball, Soccer, Track and Field, Lacrosse, Swimming, and Badminton!

FALL SPORTS

Fall sports are a great place for the Frosh to get involved in Lick activities! This year Lick-Wilmerding: added a Girls Field Hockey team. Multiple teams made it to NCS. The Tigers had a BCL winning Volleyball team, and had the most successful water polo season (for boys and girls) to date!

CROSS COUNTRY

This year Lick's Corss Country team had one heck of a season. Both Varisty Boys and Varsity Girls made it to States and both teams came in third place. This is the first time Cross Country made the podium at states! After having a rough year with injuries, and meets being canceled the team came back strong and made us proud.

FIELD HOCKEY

Lick's newest addition to the fall sports program is Girl's Varsity Field Hockey. This group of girls worked so hard this season and made the Lick-Wilmerding community proud! Although the scored a total of one goal this whole season, they did not lose every game! Coach Smith and the Athletics Department are excited about the development of this team in the upcoming years.

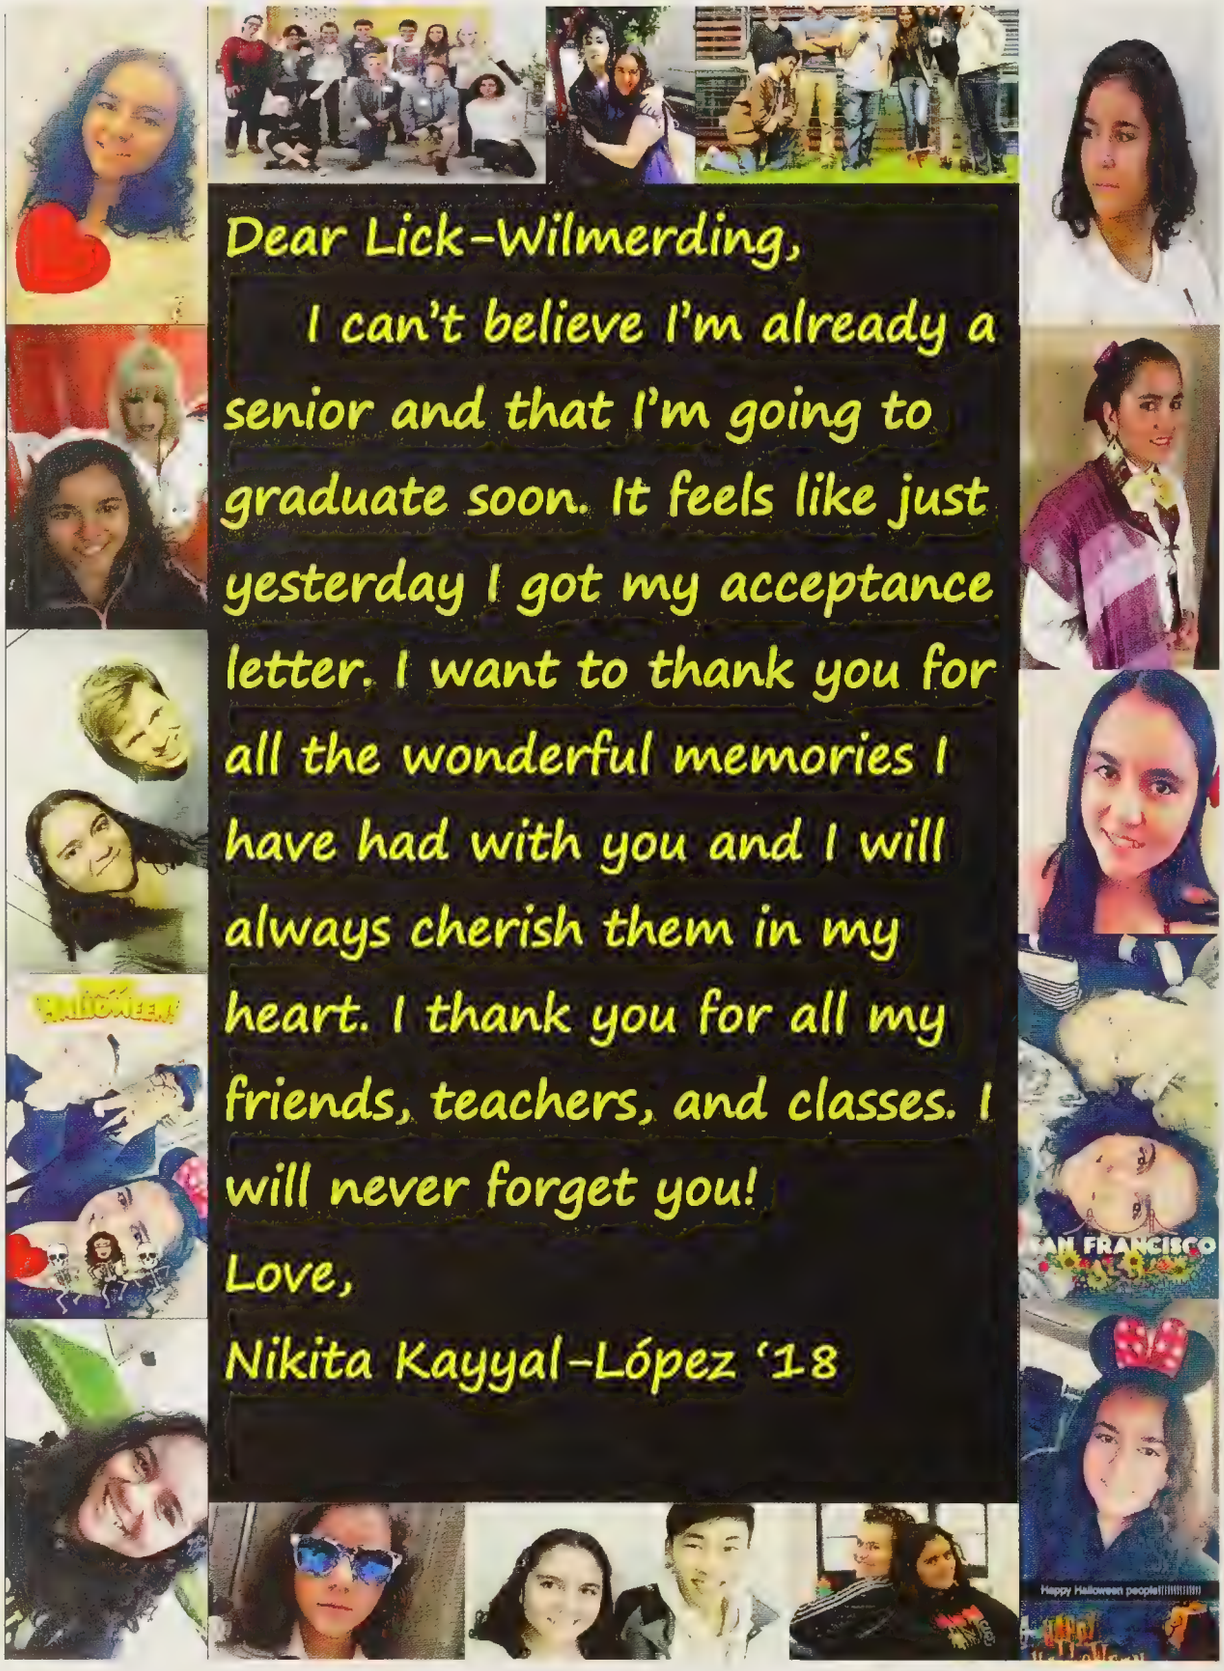
KOMATSU



Dear Lick-Wilmerding,
I can't believe I'm already a senior and that I'm going to graduate soon. It feels like just yesterday I got my acceptance letter. I want to thank you for all the wonderful memories I have had with you and I will always cherish them in my heart. I thank you for all my friends, teachers, and classes. I will never forget you!
Love,
Nikita Kayyal-López '18

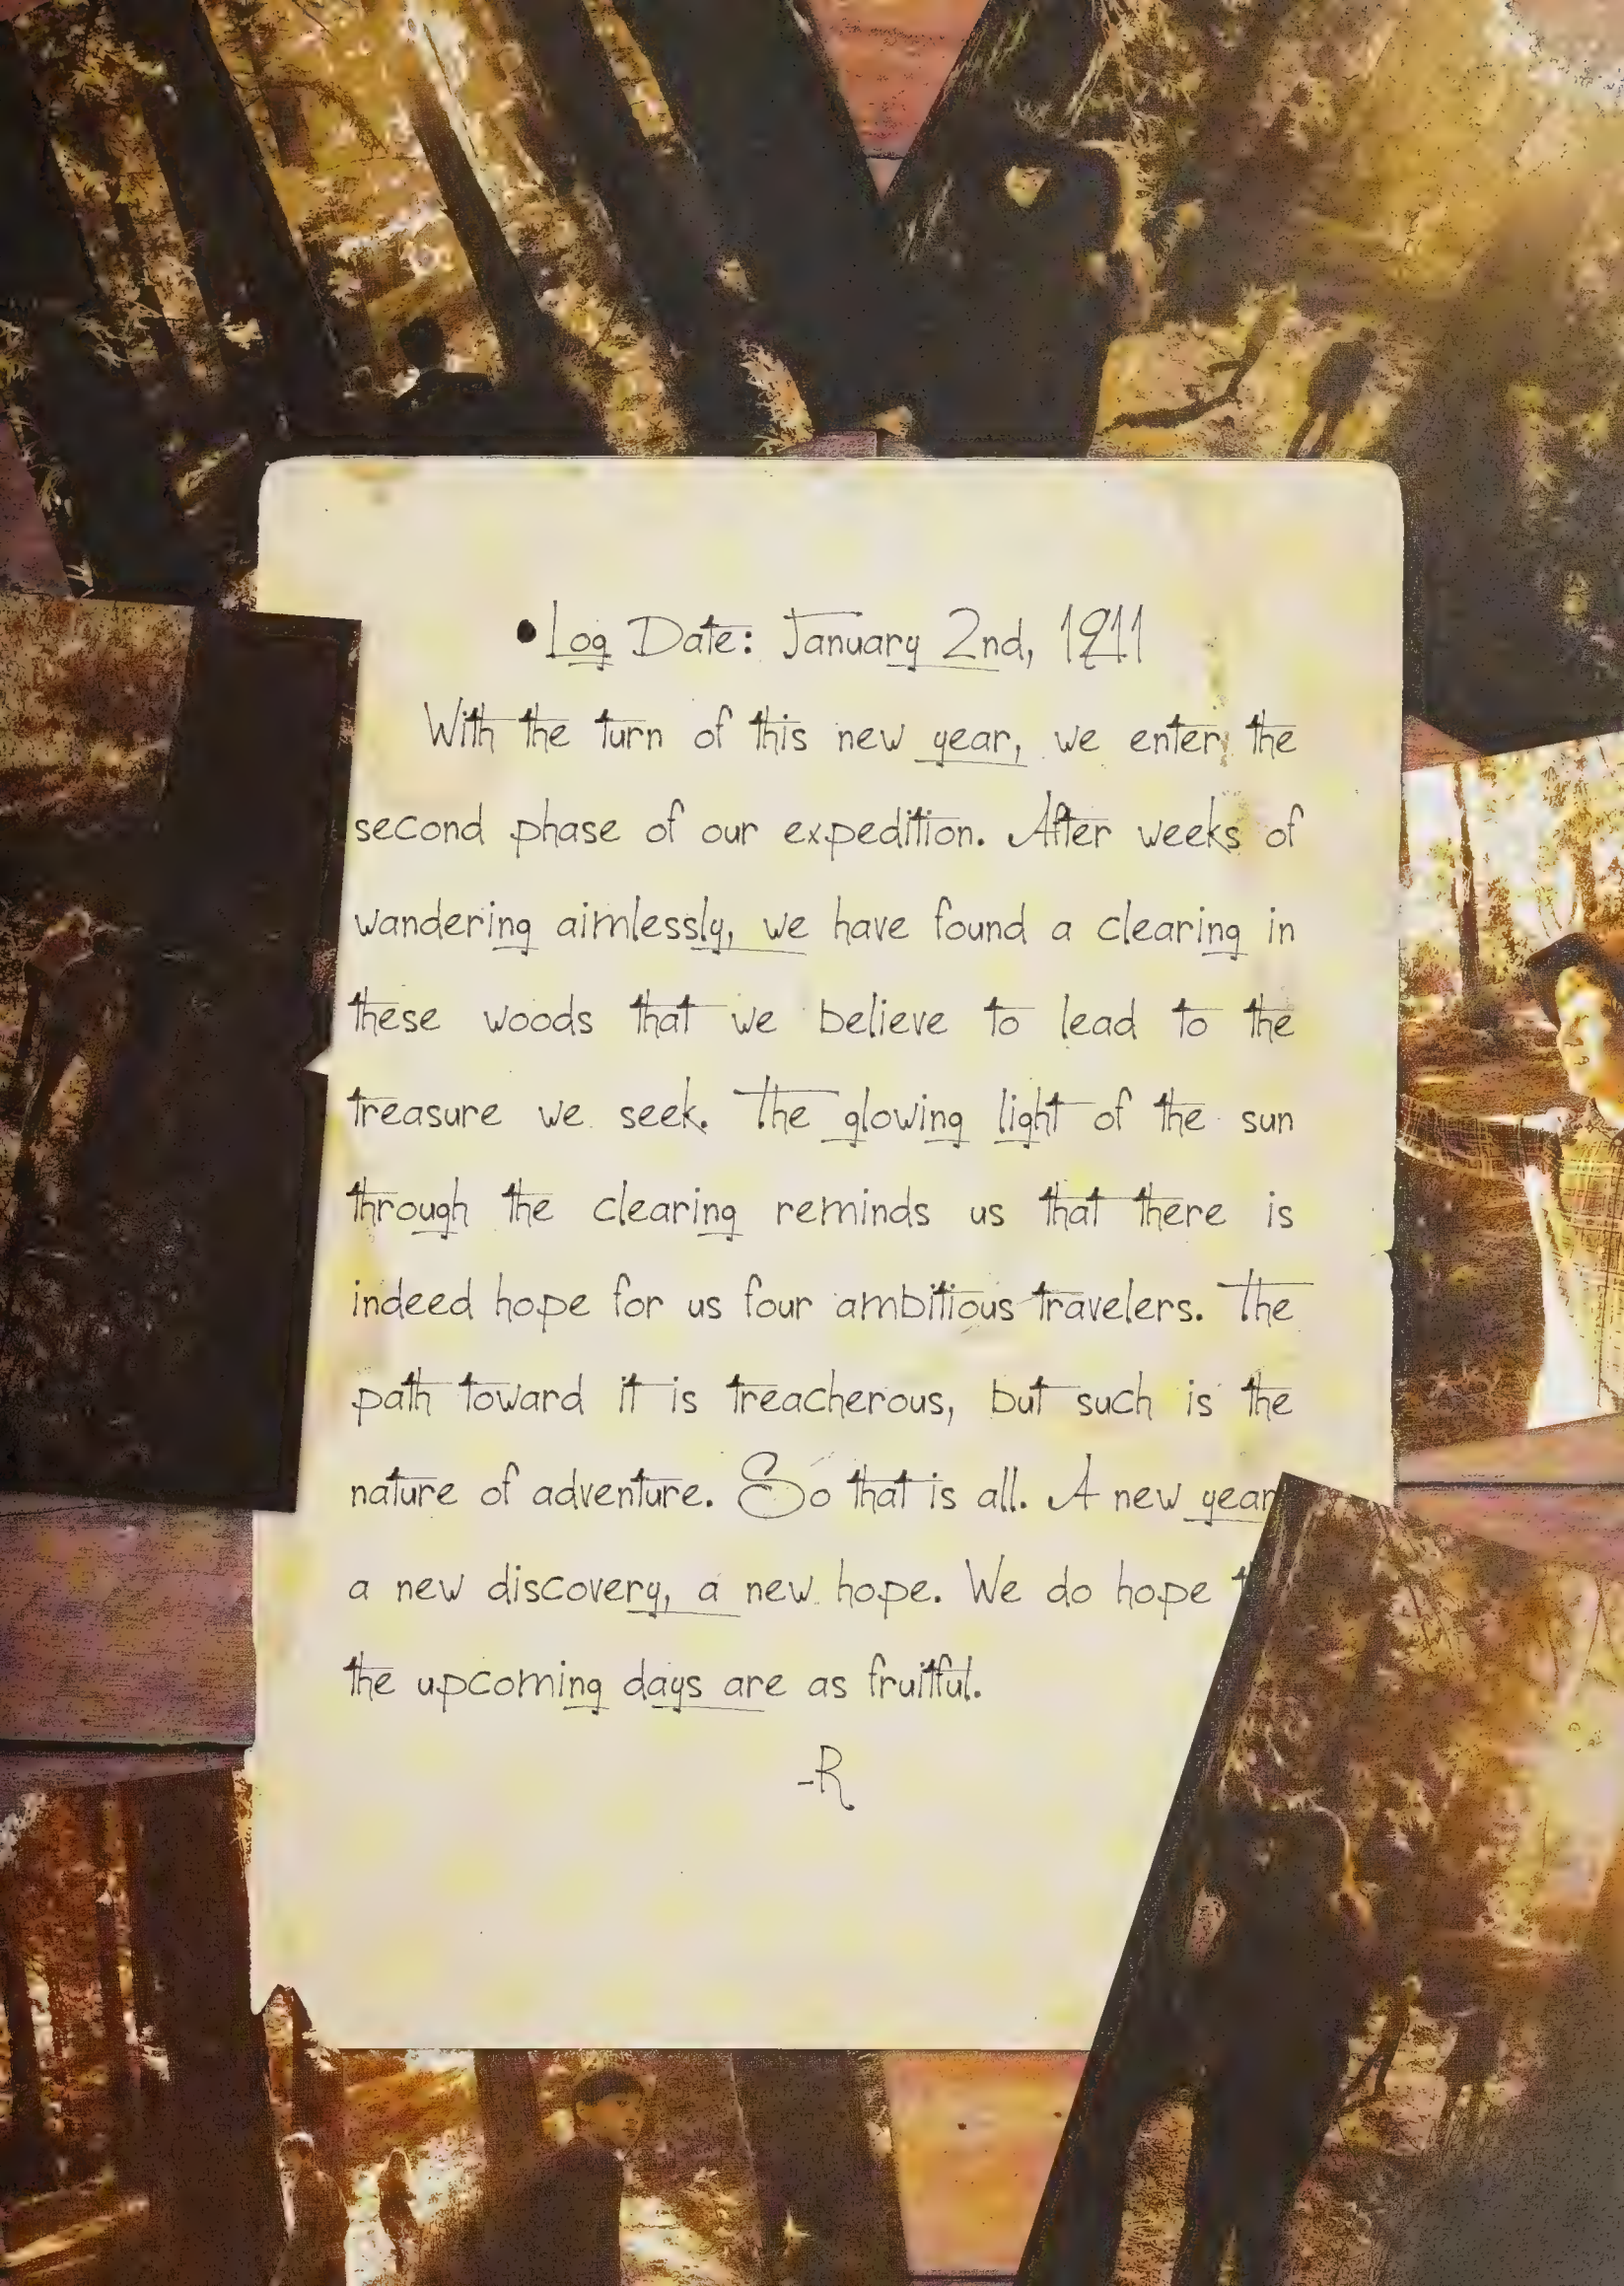
• Log Date: December 20th, 1910

[illegible] I embark on a quest accompanied by the incomparable Lois Shaw, the incredible Chris Story, and the intrepid Noah Wong. We know not the name of that which we seek, but it is a delicacy oft likened to ambrosia, the nectar of the gods, as depicted in the tales of Old Greece. Our trail is marked by thickets, mystery, and rabid beasts, but so long as we are alive, we shall march forth, and so long as we march forth, I shall document our travels in writing and in photographs. Off we go!

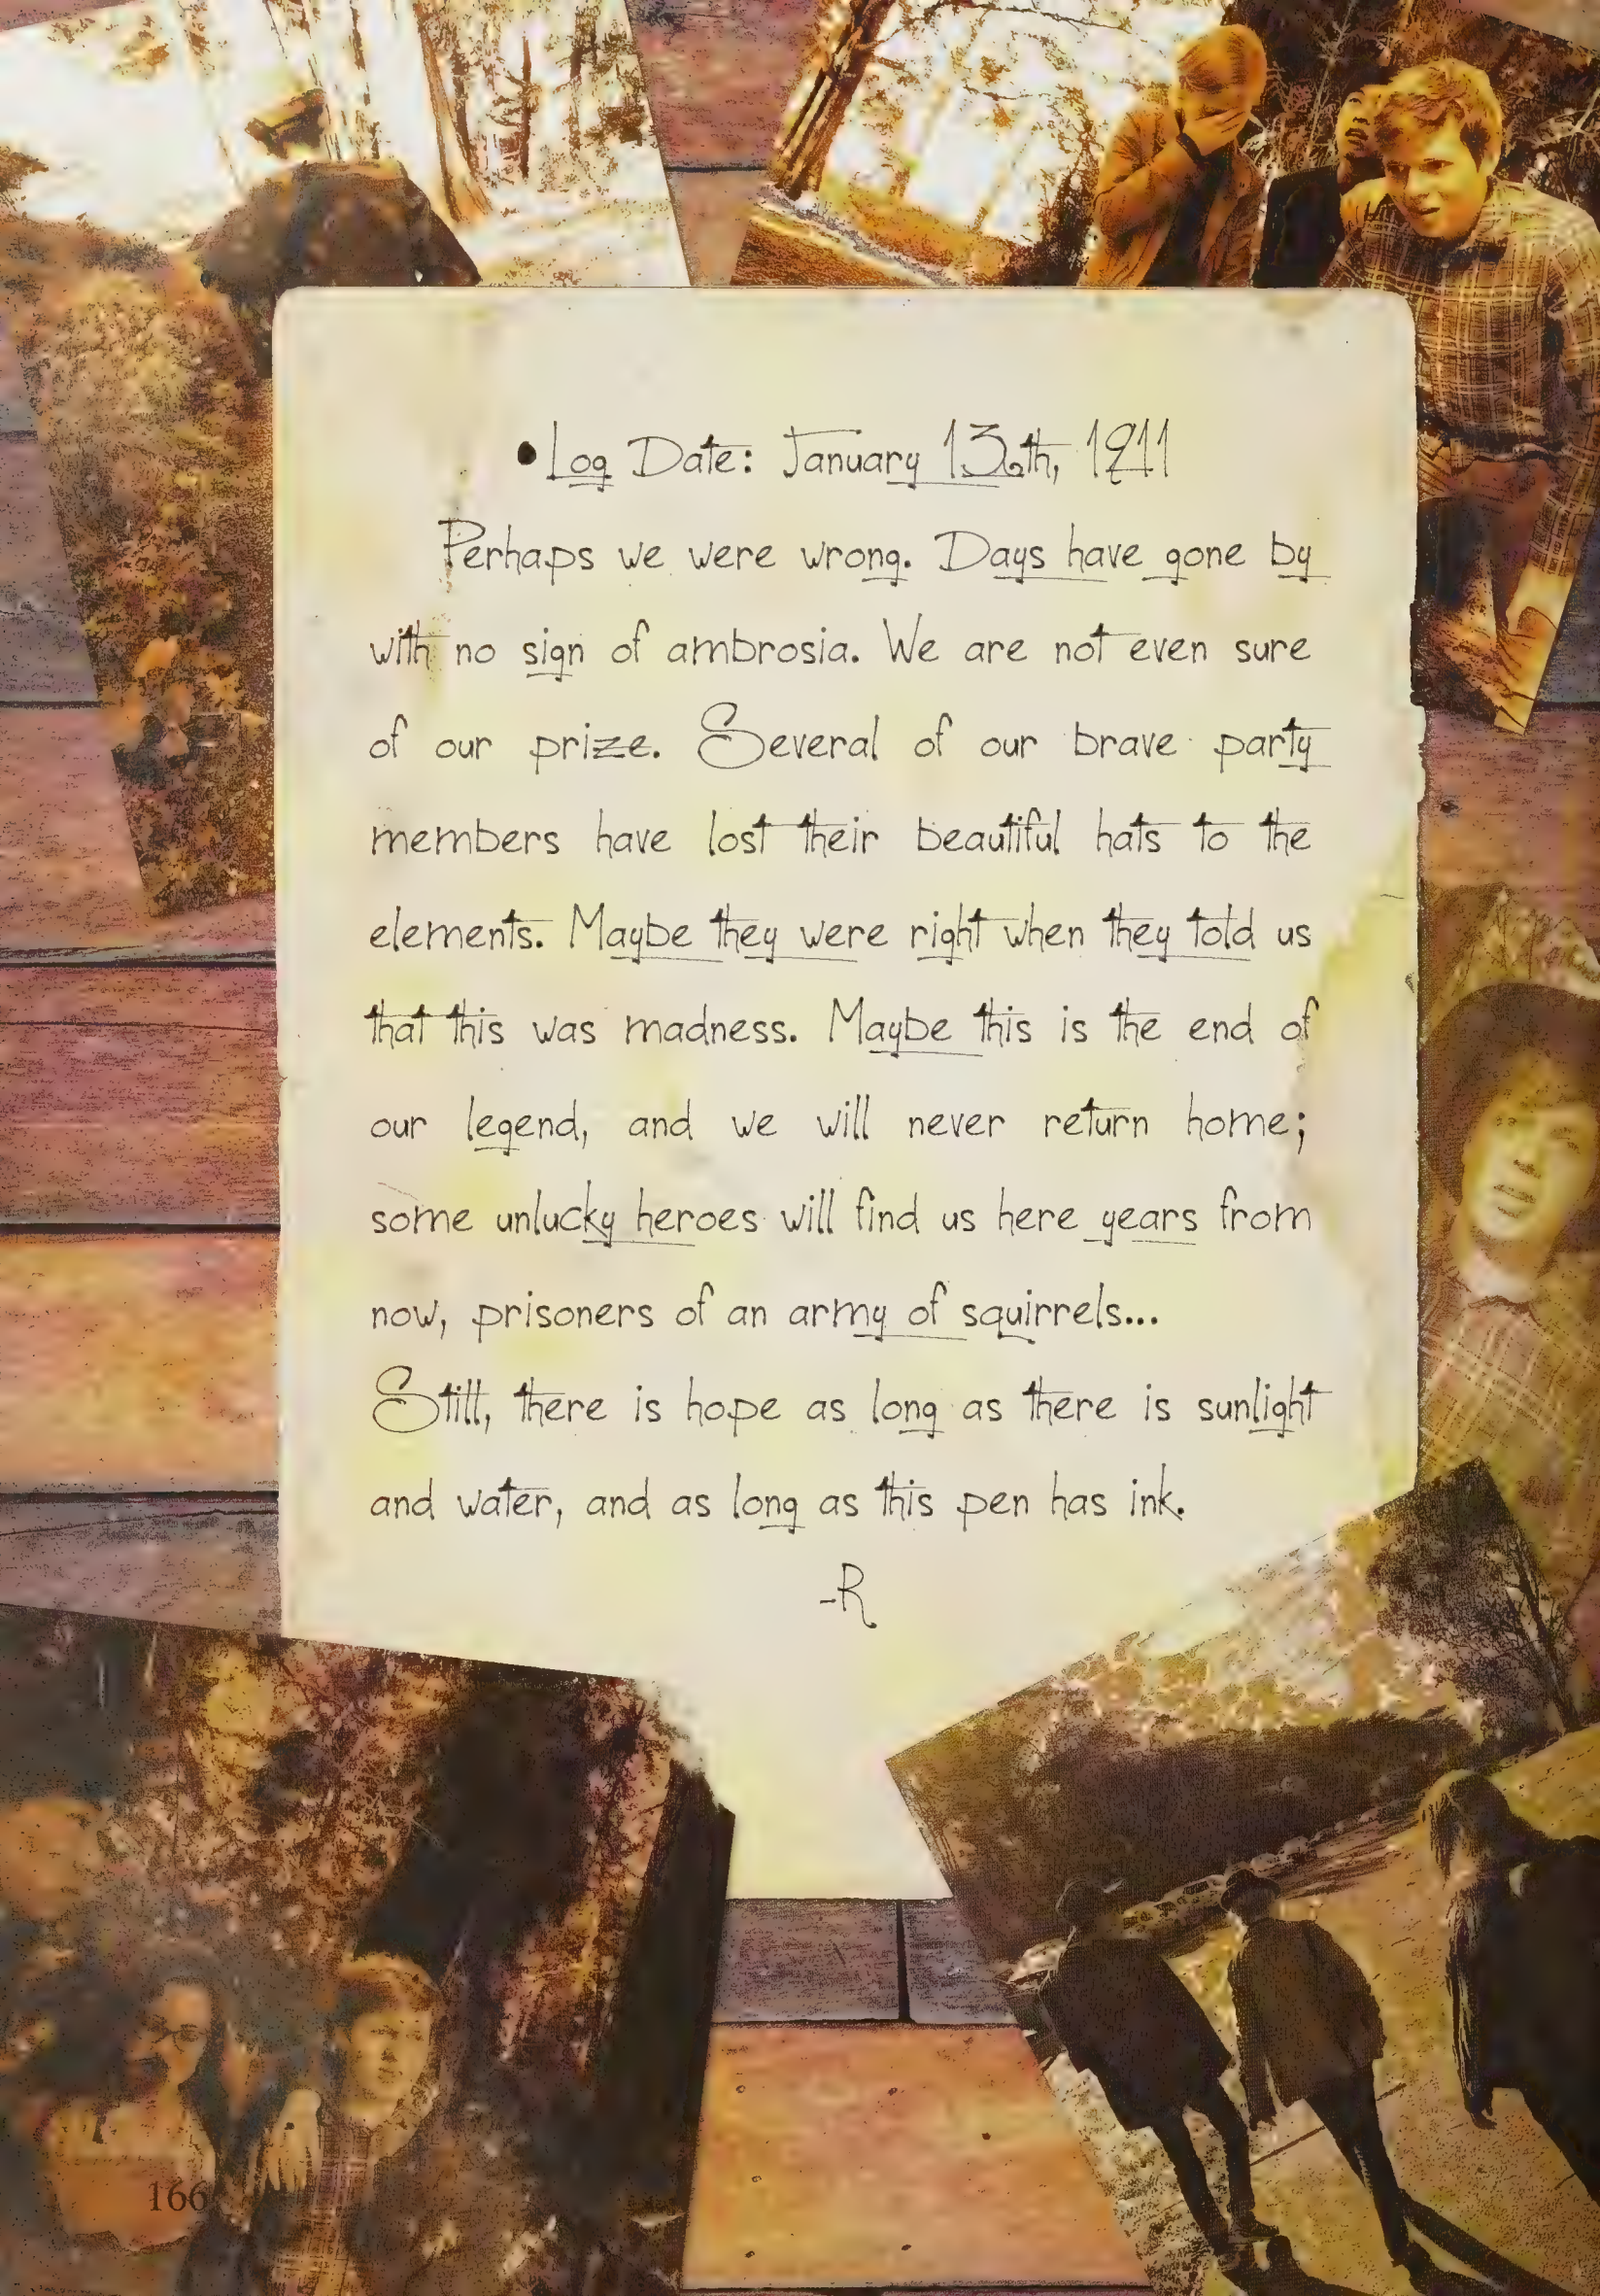
-R



• Log Date: January 2nd, 1911

With the turn of this new year, we enter the second phase of our expedition. After weeks of wandering aimlessly, we have found a clearing in these woods that we believe to lead to the treasure we seek. The glowing light of the sun through the clearing reminds us that there is indeed hope for us four ambitious travelers. The path toward it is treacherous, but such is the nature of adventure. So that is all. A new year, a new discovery, a new hope. We do hope the upcoming days are as fruitful.

-R



• Log Date: January 13th, 1911

Perhaps we were wrong. Days have gone by with no sign of ambrosia. We are not even sure of our prize. Several of our brave party members have lost their beautiful hats to the elements. Maybe they were right when they told us that this was madness. Maybe this is the end of our legend, and we will never return home; some unlucky heroes will find us here years from now, prisoners of an army of squirrels...

Still, there is hope as long as there is sunlight and water, and as long as this pen has ink.

• Log Date: January 27th, 1911

Eureka! Some keys we had found fit perfectly in the lock of a door we reached at last by following the scent of vanilla. We were skeptical, still (after so much bad luck, how could we not be?) but inside we found paradise. Ambrosia is real. Each of us have tasted it. I lack the words to describe the stuff, but if you might dare venture beyond the woods to find it, dear reader, you might agree that it tastes of adventure.

Farewell!

The 2017-2018 yearbook has been one of the most enjoyable things I have ever done and yet I am happy to say that I'm very pleased with the final product. Thank you so so much to Eleanor Sananman and everyone else who provided wonderful photos for this year's book. Another huge thank you to Mr.King, because without him I would not have gotten this done! Have a wonderful rest of the 2017-2018 school year!

With love,
Evan Fuller
